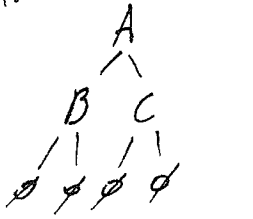
Example Trees

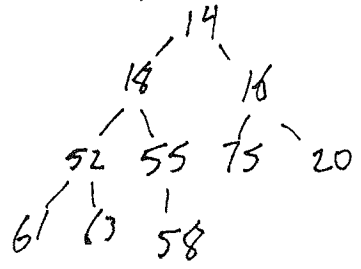
1.



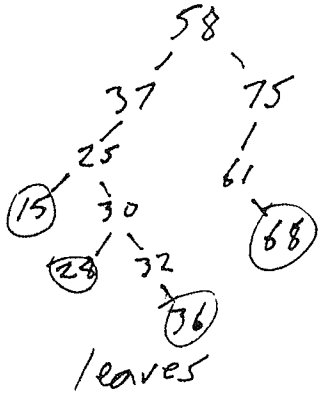
How many trees are here? (7)

2.

3.



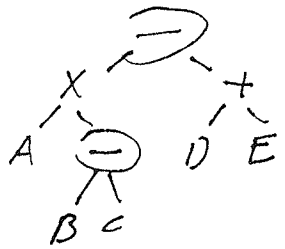
4.



leaves

path 37-3
37, 25, 30, 32

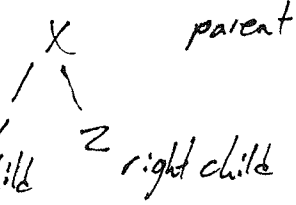
5.



element value = "=" at root (t)

element value = "-" at root(rightTree(leftTree(t)))

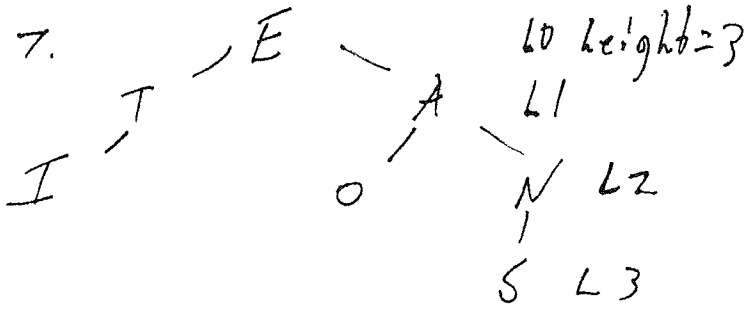
6.



parent

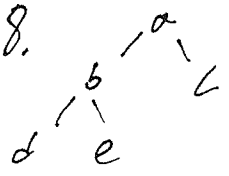
left child right child

7.

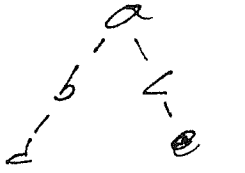


L0 height = 3

8.

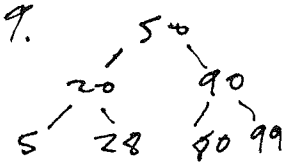


2-tree

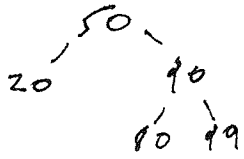


non two-tree

9.

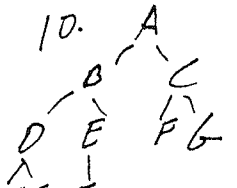


full



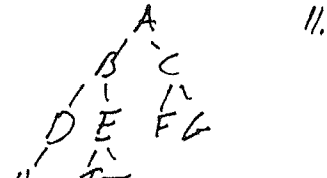
not full

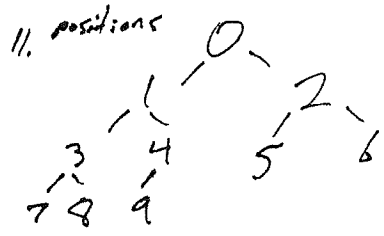
10.



complete, not full

not full or complete



not full or complete


11. positions
